

Imagine that you are moving into the neighborhood shown below. Which backyard would you choose? Why?

One of your new neighbors proposes that the fences should be taken down and a common backyard formed. List two advantages and two disadvantages of this plan. Then explain why you would support or disapprove of your neighbor's proposal.

Advantages:

Disadvantages:

I support/disapprove of this proposal because
(circle one)

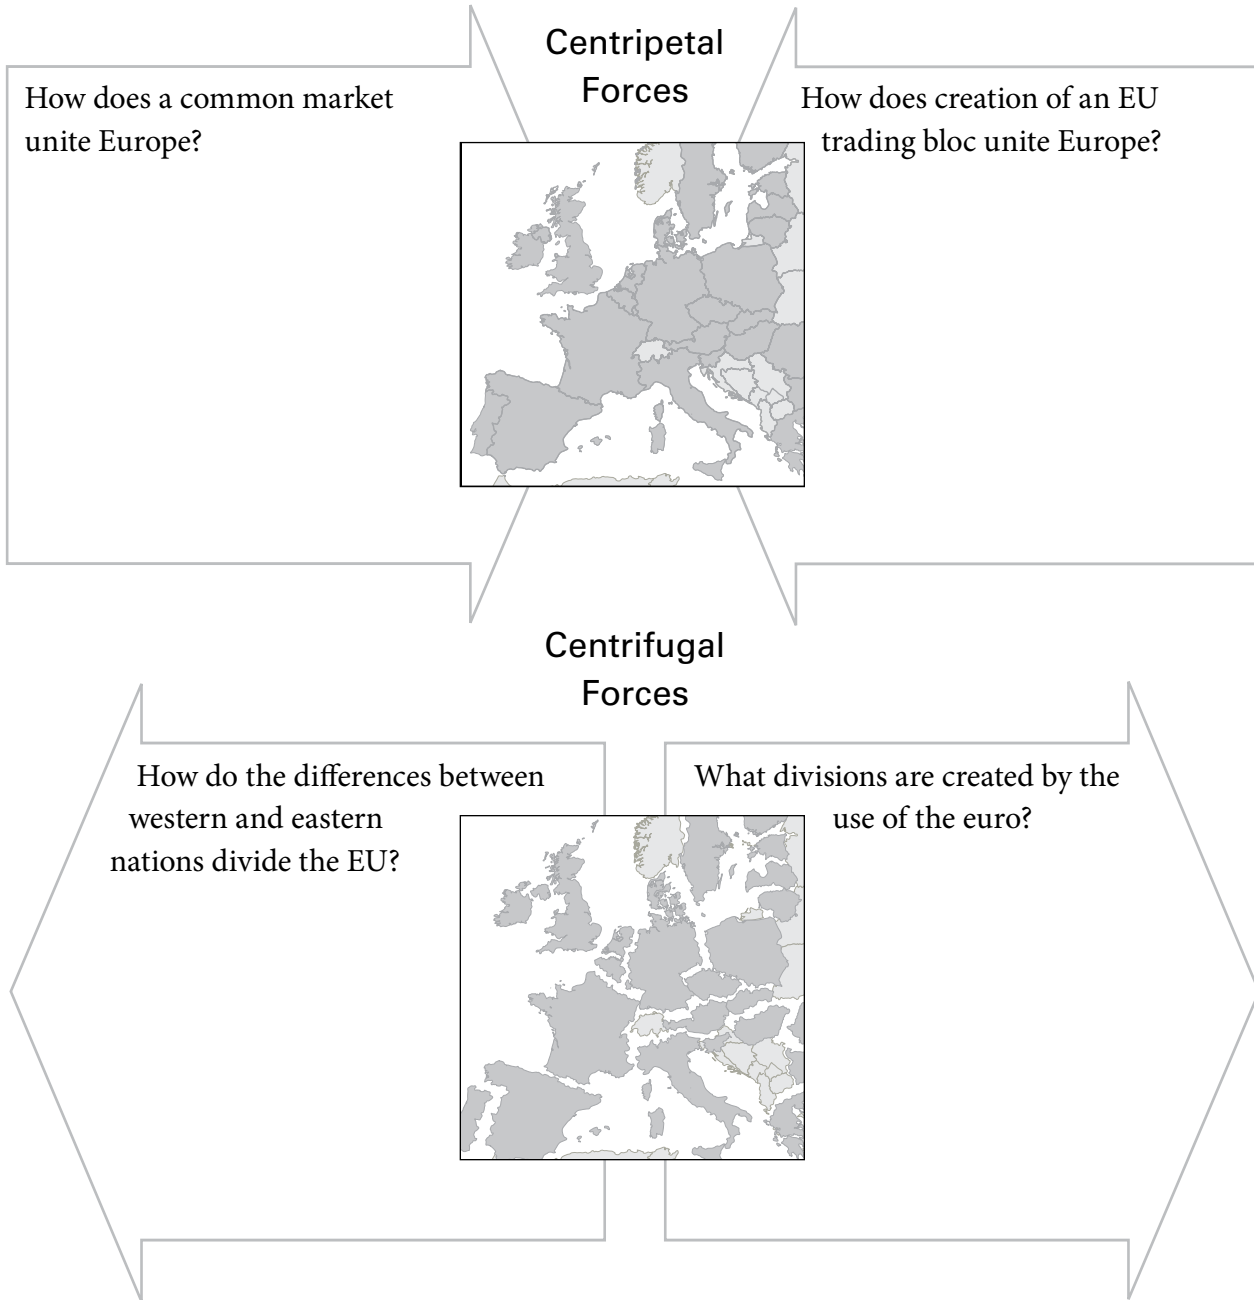

Read Sections 1 and 2. Then create an illustrated dictionary of the Geoterms by completing these tasks:

- Create a symbol or an illustration to represent each term.
- Write a definition of each term in your own words.
- Write a sentence that includes the term and the words *European Union*.

Geoterm and Symbol	Definition	Sentence
centrifugal force		
centripetal force		
common market		
supranational cooperation		

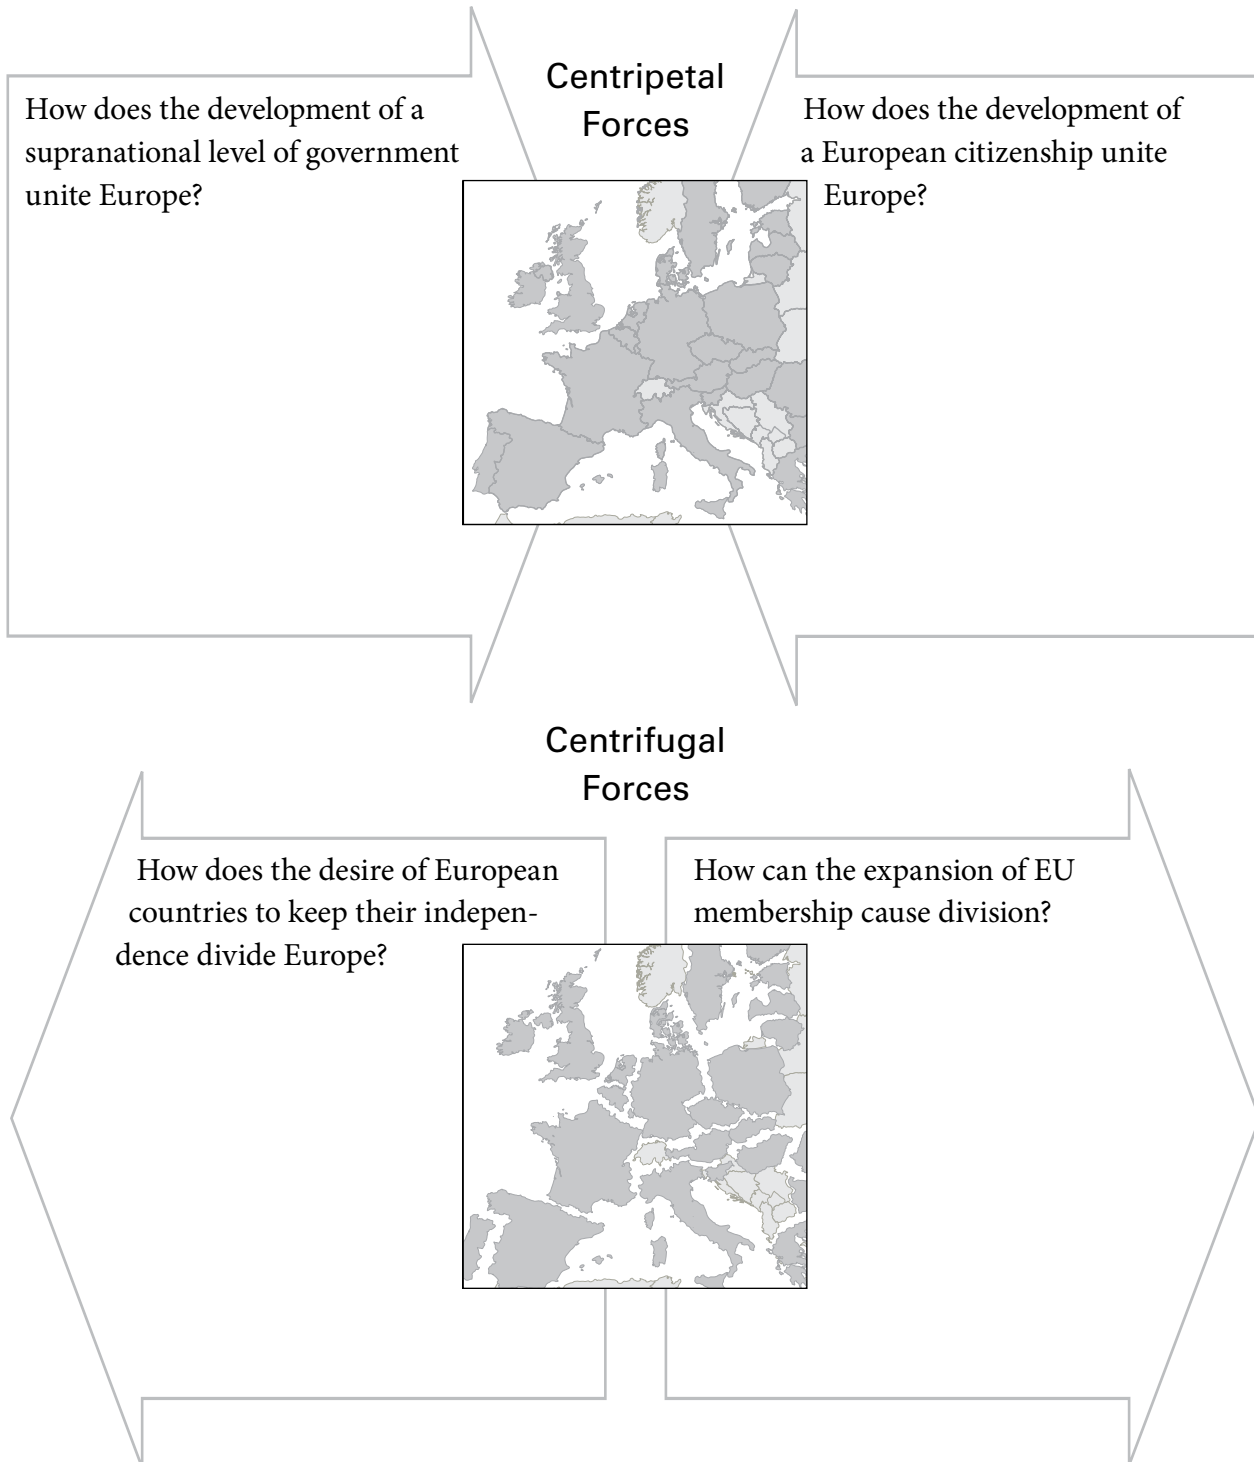

Read each of Sections 3, 4, and 5. Answer the questions in the arrows for that section. Then compare what you read to what you experienced in class.

3 Economic Cooperation in the EU

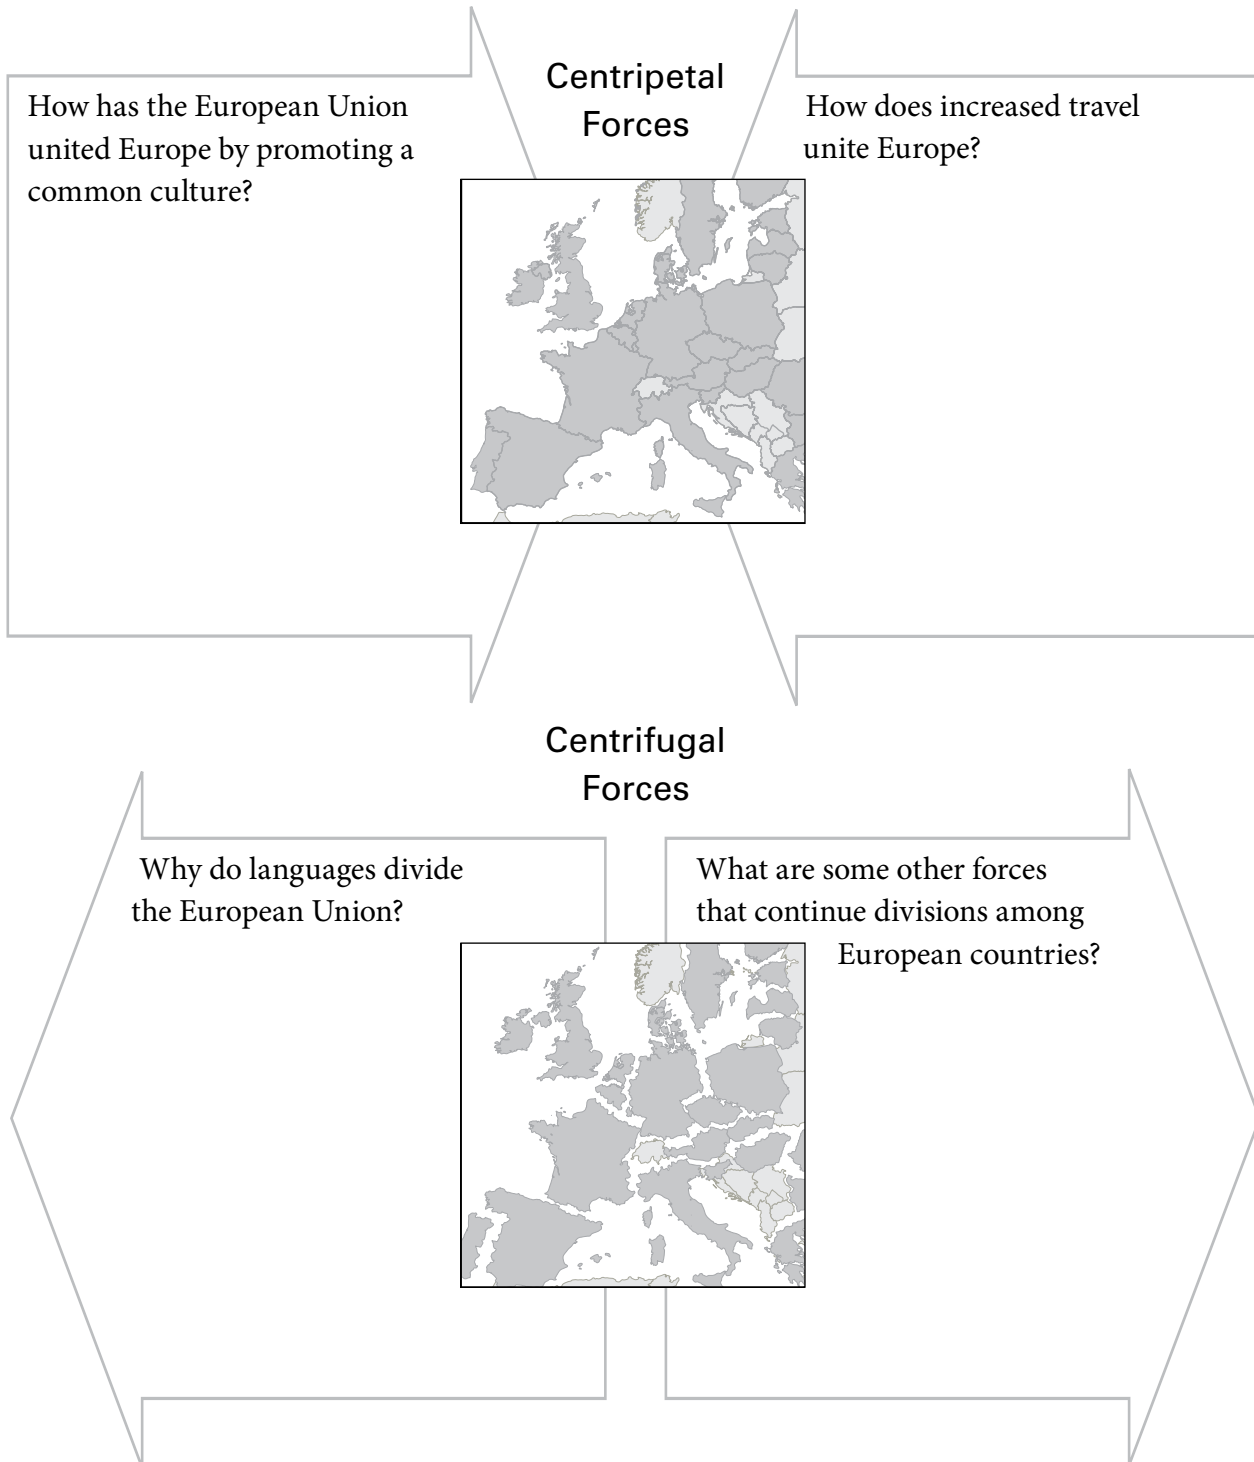

What economic centripetal or centrifugal forces did the class experience as it traveled through Europe?

4 Political Cooperation in the EU

What political centripetal or centrifugal forces did the class experience as it traveled through Europe?

5 Cultural Cooperation in the EU

What cultural centripetal or centrifugal forces did the class experience as it traveled through Europe?

A simile is a way to compare two things. Follow these steps to compare the European Union to a neighborhood:

1. Complete the statement below. List three similarities between the EU and a neighborhood. An example has been completed for you.

The European Union is like a neighborhood because

- the EU's member countries are homes to different cultural groups.
-
-
-

2. Complete the drawing below of the European Union as a neighborhood.
3. Add two details to your drawing to represent two of these terms: *centrifugal force*, *centripetal force*, *common market*, *supranational cooperation*. Label each detail to explain how it represents the term.
